Event Date: September 22<sup>nd</sup> & 23<sup>rd</sup> 2012

## **Steam and TVR Extravaganza**

Papplewick Pumping Station will be in steam again on September 22<sup>nd</sup> and 23<sup>rd</sup> and as always the staff and volunteers are anticipating a great turn out. Visitors to Papplewick will not only be greeted with the delights of the original Victorian Pumping Station in full steam, but in addition on the Sunday there will be over 80 cars from the Midlands TVR Car Club. The club will be at the Station to celebrate the history of this famous car with a display of TVRs dating from the 1920s through to the 1980s. In addition there will be performances from the popular Black Pig Border Morris team, who will be dancing on Sunday at approximately 12.15pm, 2pm and 3.15pm.

“The TVRs are a very popular sports car and the Pumping Station is the perfect setting for their celebrations. I know all the family will love looking at these vintage cars as much as watching the beam engines in steam” said Director Ashley Smart.

The Station is in steam on September 22<sup>nd</sup> from 12pm-5pm and September 23<sup>rd</sup> from 11am-5pm. The Pumping Station is just off the A60 at the Seven Mile crossroads between Nottingham and Mansfield.
